

Human Service Workers

ACTION | ACTION | ACTION

Last week, the NYS Assembly and NYS Senate included language in their house budgets (resolution) that supports a human service cost of living adjustment (COLA). This is fantastic news!

However, the Governor's budget did not include an increase and the Senate language does not state how much money would be allocated.

Budget conversations are happening NOW and we need to act quickly. Please call or email the following and tell them how important it is to include at least a 2% human service COLA in the final 2014 Budget.

Governor Andrew Cuomo
